

Racaedo

GRANITE EFFECT
Classic Effect / White Base

AUGUST 2021 ISSUE

ON THE WALLS

Inside this issue

PG. 1

Wallco will be joining in the celebration of our National Day this year with our newest wall & floor texture coating collection, *RACAEDO*.

PG. 2

Discover the mysterious charm of *RACAEDO*, our latest seamless Granite texture coating system. She is undoubtedly one tough beauty with a classic outer appearance combined with a sturdy and robust inner structure.

BRING IT ON, AUGUST!

With National Day just round the corner, it's the time of the year again where we get to relish the patriotic view of the Lion City's red and white flags soaring proudly in the blue sky above our heads. While there may be some disappointment when the postponement of the National Day Parade (NDP) 2021 due to the latest Covid-19 restrictions was announced, this has also become yet another rallying call for us to stay resilient in tiding through this tough time together as One People, One Nation, One Singapore.

This remarkable resilience and unity upheld by our fellow Singaporeans have also become a much-needed motivation that continues to keep Wallco going amidst this pandemic. Yes, we will go on.

Hence, this August is going to be an exciting and joyous month not only because we will be celebrating the 56th year of our nation's independence, but also because Wallco will be launching our newest wall & floor texture coating collection, *RACAEDO*.

Read on to find out more!

Seamless Granite

"As elegant as Swan, as tough as Diamond" is only a subtle way to delineate the alluring and mystical charm of our newest collection, *RACAEDO*.

Simulating the Granite effect, *RACAEDO* is a composite of crushed Granite stones and modern resin. This bonding of real Granite particles forms a monolithic and coherent structure that creates a natural matt effect just like any other real Granite.

So why choose *RACAEDO* over the usual Granite stones? While "joint lines" have always been a common problem when you use Granite for your countertops or floor tiles et cetera, *RACAEDO* is able to give you a seamless and even Granite finishing. No matter the size, shape or layout of your countertops, wall or floor areas, *RACAEDO* delivers high quality Granite finishes with no more visible joint lines, at a competitive rate.

Furthermore, *RACAEDO* is suitable for application not only on the walls but also on floors, achieving a seamless and consistent "Wall to Floor" Granite effect. The robust structure of real Granite particles, combined with a layer of our organic protective top coating, makes our *RACAEDO* system resistant to water and durable enough to withstand reasonable abrasions. Hence, it is an ideal wall and floor coating solution even for high traffic indoor and outdoor areas such as the showers, balcony, offices, restaurants, hotels, and showrooms et cetera.

RACAEDO also allows for more colour selection, expanding your choices of Granite to beyond just variations of white, gray, and black. So, just pick a colour from the colour palette and speak to our team today to discuss how we can match it to the closest possible.

Did you know?

Granite is believed to have been formed 300 million years ago, making it the oldest igneous rock in the world.

Formed deep underground, Granite is also referred to as the "plutonic" rock and is the main component that makes up the Earth's continental crust. Granite is also one of the hardest substances in the world, second only to Diamonds.
